

Help the Columbus community learn about & speak out for parental school choice!

School Choice Ohio is a nonprofit organization that works to ensure that all parents have access to quality K-12 education options. The Outreach and Mobilization Associate will help tell the story of school choice, especially the state's tax-funded scholarship programs: the Autism Scholarship and EdChoice Scholarship.

Building on a model that is already in place, the Associate will work through area private schools to identify families who use school vouchers and hold training workshops to mobilize ambassadors to tell their stories to build support for the scholarships. The Associate will also seek high-impact community partnerships and work through community networks to build awareness of and support for the scholarship programs available to Ohio parents. The Associate's work will be an integral part of a statewide strategy to share the importance and success of school choice.

Come Join Our Team!
